WISCONSIN COMMODITY PROGRAM

Visit: <https://dpi.wi.gov/school-nutrition/usda/direct-diversion/sy-21-22>

Opens Feb 10

Annual order period opens.

Those SFAs participating in direct diversion will commit pounds of bulk USDA Foods and select procured processors on the annual order survey.

Closes Feb 24

Direct Diversion Agreement" due back to the DPI for SFAs participating in direct diversion processing.

The screenshot shows the Wisconsin Department of Public Instruction website. The header includes the state logo and a search bar. The main content area is titled "Direct Diversion: SY 2021-22" and features a sidebar with navigation options. The sidebar lists "USDA Foods" (Annual Order, Cheese Processing, Commercial Distribution, Complaint Form) and "Direct Diversion" (School Year 2021-22, 2020-21, 2019-20, Basics, Guides and Worksheets, Processors Information, Training, USDA Guidance). The main content area includes a "School Year 2021-22" section with links to "Eligible Processors - Bulk USDA Foods and VPT Methods", "Program Timelines", "Pounds Management Chart", "Questions, Answers and Examples", "School Districts' Responsibilities", and "Inventory Sweep Policy SY 21-22". An "Agreement:" section lists the "Direct Diversion Agreement" with a note: "(REQUIRED: submit to DPI by Feb 17, 2021)".

GROWING THE PROVIEW K-12 BRAND

We were hatched in 2014, when John Soules Foods, a family-owned chicken and beef producer for the food service industry, acquired ProView Foods, a breaded poultry provider for schools and institutional nutrition programs. John Soules Foods has provided enticing beef and chicken products to restaurants, retail, and foodservice establishments for 45 years. Through the ProView K-12 division, we're providing that same quality to school districts all over the U.S.

Our **mission** is to be an industry leader in offering great tasting chicken products at a competitive price for K-12 schools across the country.

Our commitment to both **superior quality** and **food safety** sets us apart from the competition!

#13860 • 2/5lbs

- Fully Cooked Diced Chicken – *Easy-Prep Salad Toppings*

LOUISIANA STYLE FILLET

This solid muscle, no soy, breaded fillet has the crispy, crunchy texture and bold flavor students love - without being fried. Serve these fillets simply on a bun with mayo or spicy mayo, and topped with pickles for a crowd-pleasing sandwich.

These crispy baked chicken breast fillets compete with popular sandwiches from favorite fast food chains!

#60438 • 4/5lbs

WHOLE GRAIN BREADED SPICY FILLET

Looking for a spicier version of our chicken breast fillet? This juicy, sandwich-ready fillet made with No Antibiotics Ever (NAE) solid muscle chicken meat packs a hot and spicy punch, coated in our crispy whole grain breading. Our NAE program uses chickens that have been raised humanely and safely, without the use of antibiotics. Students will love this fillet served on its own, with a tangy ranch dressing, or topped with crisp lettuce or fresh tomato.

#60625 • 4/5lbs

WHOLE GRAIN BREADED TENDER FRITTER

Our zesty whole grain breaded tender fritters are the ideal addition to school lunch menus. Made with solid muscle chicken meat and lightly seasoned with mouth watering spices like paprika and garlic, these can be served on their own or with a delicious signature sauce like honey mustard or tangy ranch.

#63230 • 4/5lbs

WHOLE GRAIN BREADED CHICKEN BREAST BITES

64630-WG Chicken Breast Bite

Boneless wings, salad toppers, dipping bites - however you serve them, our chicken breast bites are a crowd-pleaser. Whole grain breaded, with zesty flavor from garlic, mustard, and paprika and made with solid muscle chicken breast meat, our bites are a versatile, high-quality product you'll want to feature again and again.

64230-WG Buffalo Glazed Chicken Breast Bite

Turn up the heat with our solid muscle Buffalo Bites! Each crispy bite gives students the spicy, tangy flavor they love, and the quality they expect. Our bites come pre-coated in a spicy Buffalo-style sauce, making prep fast and ensuring a high-quality product every time. Serve these bites with a side of ranch and crisp veggies for dipping, as an unexpected salad topping, or come up with your own unique creations!

64130-WG Asian Glazed Chicken Breast Bite

Our solid muscle Asian Style Chicken Bites are expertly seasoned with ginger, garlic, soy sauce, and a hint of sweetness from honey and brown sugar, for an authentic flavor profile that's popular with students. Pre-sauced and coated in a crunchy whole-grain breading, these bites are perfect as a stand-alone entree (we suggest serving with fresh sugar snap peas and an Asian-style dipping sauce!) or popping on a bed of shredded cabbage, carrots, and greens for an easy Asian entree salad.

#64130-WG • 4/5lbs

CHICKEN SAUSAGE PATTY

Shake up your sausage biscuit sandwich by using our savory chicken sausage patty instead! A great alternative to the typical pork sausage, our patty is juicy and full of savory, smoky flavor. Highlight this at breakfast or add to lunch menus with a side of fluffy pancakes for the ever-popular "breakfast for lunch" days.

WRAPPED AND READY

You want to provide your students with great-tasting, high quality meals - and you need to do it quickly. Pre-packaging your meals can be a great option to speed up service while maintaining safety and food quality, but sourcing the right type and quantity of packaging can slow you down. ProView can help!

We offer a variety of fully-cooked, restaurant-quality items with the perfect packaging included right in the case. Students will appreciate the retail look and flavor of their favorite chicken sandwiches, nuggets, tenders, and popcorn bites, and your teams will love how easy our packaging makes meal service.

PROVIEW K-12 AND USDA FOODS

A WINNING COMBINATION!

COMMODITY

- Higher Plate Cost
- More paperwork to track pound balances at processor
- USDA Foods allocation may run out faster
- Still need to draw down dark meat
- May not be able to guarantee processed products are NAE

No Processing? No Problem!

ProView K-12 offers a wide variety of high quality, cost effective products for school nutrition programs. Here's how to incorporate our products into meals and still fully utilize your USDA Foods allocation, while keeping food costs low.

GREGORY PACKAGING, INC

Founded 1922

Gregory Packaging is a third generation, family owned juice company with corporate offices in Morristown, NJ and plants located in the easily accessible hubs of Bethlehem, PA; Newnan (Atlanta), GA; and Phoenix, AZ. Our *SUNCUP™* brand chilled and frozen portion juices are packed in 4 oz. and 6 oz. foil sealed plastic cups, as well as 4 oz and 6 oz cartons. *TOTALLY JUICE™* and *FARM & ORCHARD™* brand juices are packed in 4.23 oz. and 6.75 oz. shelf-stable juice boxes. And our *GREG PACK™* brand is a line of frozen 12/32oz juice concentrates.

Our story goes back three generations to 1922 when Reed Gregory opened the first manufacturing facility in New York City processing and wholesaling seafood. He worked hard and quickly developed a reputation for excellent quality and honest dealing. His son, Ed, a veteran of World War II, joined him in 1946. In the 1960's Ed saw the growth of the beverage industry and adapted the business to manufacturing fruit juices and drinks for many of the famous brands you know today.

Gregory Bros.
Circa 1922

During summer breaks through high school and college, Ed's sons, Ned and Dan worked with their dad, driving forklifts, loading trucks, running machinery, learning the business from the farmer's groves to the factory floor. It was hard work but very rewarding!

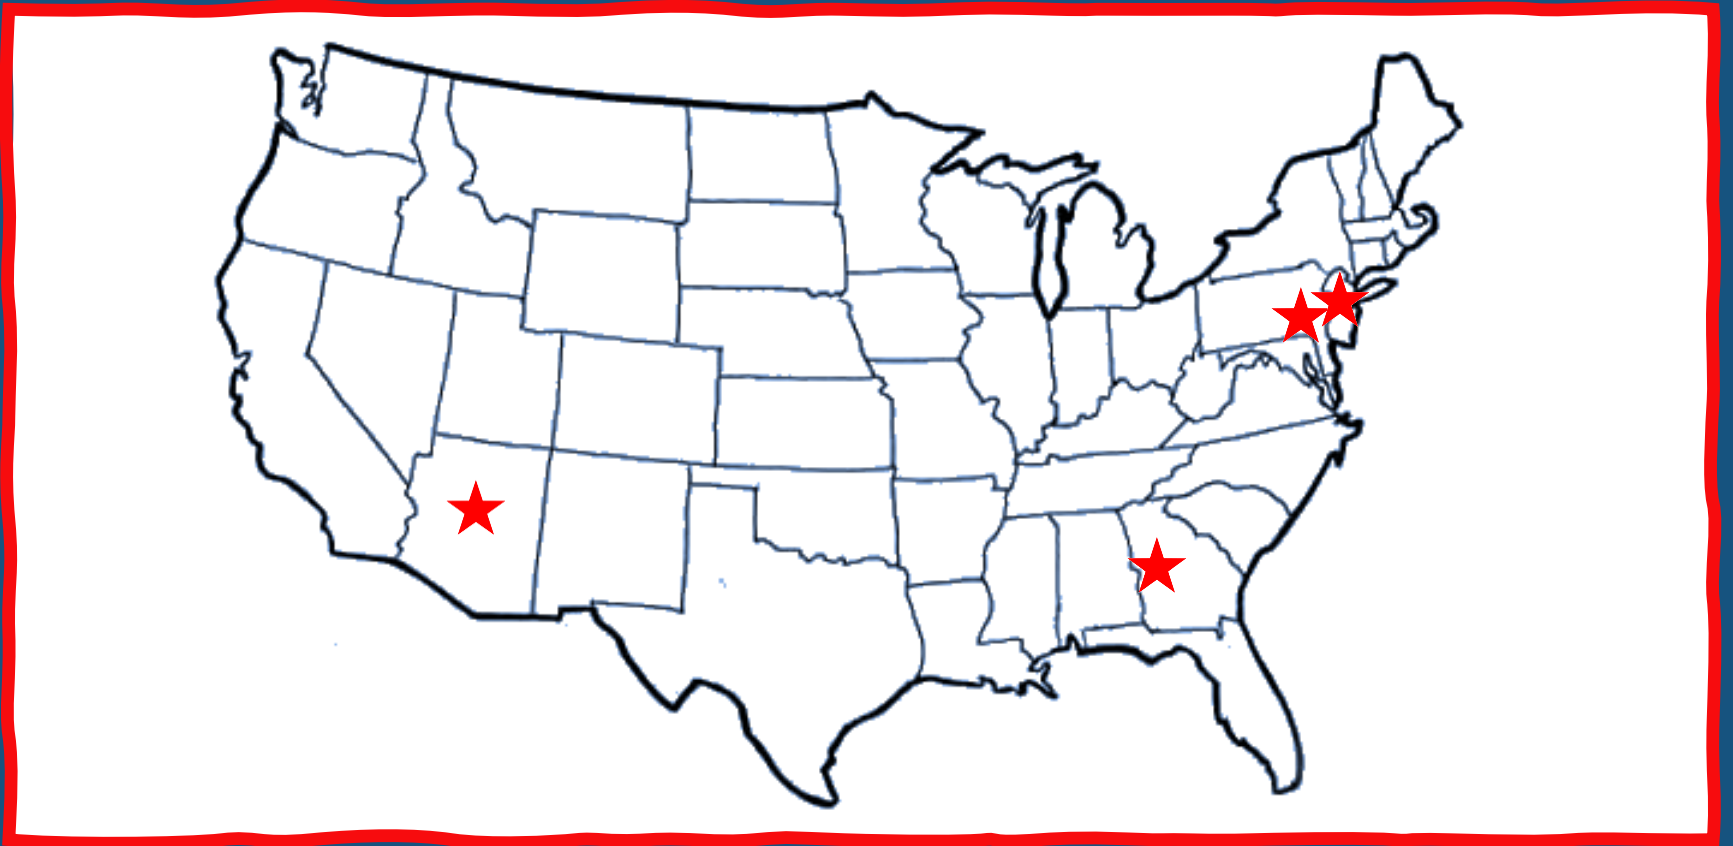

Today, the hallmark of Gregory Packaging's success has been our unflinching adherence to premium quality, while maintaining our pledge to be a low cost producer to our valued customers. All of our juices are packed to USDA and FDA standards and all plants are HACCP certified and annually inspected by independent auditors for food safety, quality and food defense.

Our processing and packaging warehouses feature state of the art facilities and house our in-line reconstitution and packaging process which assures superior quality control and labor saving efficiencies. Concentrate, introduced to the process, passes through reconstitution, blending, flash pasteurizing, packaging, and storage in our freezer in 20 minutes from start to finish. Quality control is maintained by our in-house QA and Food Technology staff, with samples continuously pulled and tested for

compliance with identity standards, freedom from bacteria and contaminants, fill level, and appropriate flavor. Samples are then retained for future reference.

The product integrity is of utmost importance as it finally reaches the consumer. Our goal is the customer's total satisfaction and confidence in all of our brands.

No Hydrogenated Oils

- Many spread manufacturers use fully hydrogenated oils from various sources to help prevent oil separation (including mono & di-glycerides).
- These hydrogenated oils are not natural and are not considered by health experts to be good for you.
- We believe that providing good nutritious foods for kids is a responsibility and something that we are very passionate about.
- We eliminated hydrogenated oils (mono & di-glycerides) still found in most other spreads in 2017 because it was the right thing to do for the better health of kids.

A source of Omega-3

- Our **WOWBUTTER** has 1000 mg of the health promoting, immune boosting, inflammation reducing OMEGA-3 (ALA) essential fatty oil in each 32g serving.
- Peanut butter has zero and many other spreads have little to none.

***WOWBUTTER* is the #1 Rated Plant Protein**

(PDCAAS) – Protein Digestibility Corrected Amino Acid Score – adopted by the US FDA and the World Health Organization (WHO) in 1993 to evaluate protein quality based on both the amino acid requirements of humans and their ability to digest it. The higher the score, the more bioavailable and digestible it is and consequently, the more nutritional benefit to your body and wellness from consuming it.

Lab Tested PDCAAS Quality Comparison

- Wowbutter has over 80% (1.8 times) better quality protein than Peanut butter, over 100% (2 times) better quality protein than sunflower butter and over 190% (2.9 times) better quality protein than almond butter.
- Wowbutter is a more bioavailable (usable by the body) complete protein, so the nutritional benefit of an equal serving size is far better than the incomplete proteins of other spreads
- Meat and dairy protein score 100 for PDCAAS

PDCAAS Quality Scores

-	Wowbutter	89.2
-	Peanut Butter	49.4
-	Sunflower Butter	44.3
-	Almond Butter	30.6

Food Choices Matter

Not all plant proteins are the same. It is always a better, more responsible choice to select foods that contribute more nutritionally.

Protein Digestibility should be a key deciding factor when selecting meat alternates to replace meat or dairy proteins.

Wowbutter is the only spread with a protein source that is considered complete (containing all 9 essential amino acids) equivalent to meat or dairy protein necessary to build and maintain muscle mass. This is reflected in the high PDCAAS quality score of Wowbutter.

With more education on the difference between protein quality, better informed food decisions can be made which will result in a significantly better nutritional impact for kids, which is the case when choosing Wowbutter over other inferior spreads as a meat alternate.

Wowbutter satisfies the two key factors of a successful food item:

- The best possible nutrition with unmatched quality
- A taste & texture that kids love!

Flexible Meal Crediting Menu Ideas

WOWBUTTER & JELLY SANDWICH
2.2oz WOWBUTTER = 2 M/MA
2 BREAD SLICES = 2oz GRAIN EQUIVALENT

WOWBUTTER & CELERY
1.1oz WOWBUTTER + 1/2 CUP CELERY
= 3/4 VEGETABLE SERVING

MEAL KIT
1.1oz WOWBUTTER = 1 M/MA
BREADSTICKS = 1oz GRAIN EQUIVALENT
4.25oz FRUIT JUICE = 1/2 CUP FRUIT

WOWBUTTER & APPLE SLICES
1.1oz WOWBUTTER = 1 M/MA
2.25oz APPLE SLICES = 1 FRUIT

One 1.12oz Serving of WOWBUTTER is equal to 1 M/MA or 1/4 cup Vegetable (Legume)

Tasting With Kids Is The True Test

- Wowbutter got its name because so many people after tasting it for the first time would say “WOW!” and still do to this day!
- Taste testing with kids prove that Wowbutter has the preferred taste and texture that kids already know and love!
- With a proven higher taste acceptability, there is less “plate waste” associated with selecting Wowbutter...the better economic choice and true cost benefit leader compared to other spreads.

Packaging Available

One 1.12oz Serving of WOWBUTTER is equal to
